Summary

A Robotics & IoT enthusiast who loves turning ideas into real working projects. Currently pursuing my degree in Information Technology with a specialization in Robotics, I focus on building autonomous robots, IoT systems, and smart factory solutions that solve real-world problems.

Work Experience

- Customer Support - Intern
TechSeed Lanka PVT (LTD)
June 2025 to December 2025
 - Handled customer queries, solved issues quickly, and kept users satisfied through clear communication and timely support.

EXPERIENCE IN PROJECTS

- **Final Individual Project**
Autonomous Factory Inspection Robot
August 2024 to August 2025
 - Built an Autonomous Factory Inspection Robot that moves independently, checks machine conditions, detects metal hazards, monitors temperature, and sends alerts using IoT.
- **Embedded Systems Module**
Group Project (Robotics)
October 2025 to November 2025
 - Implementation - Smart Traffic Light System and R/C Cars
- **IOT Module Project**
Group Project (Robotics)
December 2024
 - Implementation - IOT Based Aroma remover Project

Education

ESOFT Uni Colombo
Bachelor of Information Technology (Hons)
2022 - 2026 (Expected)

IDM Campus
Diploma in Graphic Designing (High Distinction)
2022

Kirindiwela Central Collage
GCE O/L - 2015
GCE A/L - 2018

Skills

- Creative thinking
- Leadership skills
- Analytical Minded
- Time management
- Well Committed
- Proper Communication
- Teamwork
- Fast learner
- Friendly, supportive approach

Achivements

- ESOFT THINKFEST Hackathon 2025 :
Second Runner-up, Robotics Category.
